## POOL COVERS 101

Our new pool covers are here, and on a brand new pool cover reel! To help keep Fairbrae safe (and the pool warm), please follow these guidelines for pool cover operation:

1. Per California law, no swimmer should be in the water with ANY pool cover on the water. (This includes the two diving well panels)
2. To remove the covers from the pool:
  - Move cover reel into position, parallel to pool deck edge, and set the brakes to anchor the reel.
  - Attach the pool cover to the winding tube by slipping the plastic cover handles through the winding tube straps. (Start with the back winding tube, then the top, and, lastly, the front tube).
  - Wind the covers up by using either the turnwheel, or the handle attachment. The handle requires a locking pin to be removed and replaced.
  - Repeat this process for each cover.
3. To replace the pool covers, you may either guide them by hand from inside/outside the pool, or use the tow rope (located on the benches near the guardhouse).
4. Covering the pool is not mandatory, but courteous covering of the pool will help the club conserve energy. Please consider covering the pool if you are using the pool at any time past 8 PM.
5. On weekdays, SUNN will cover the pool following practice (around 8:00 PM).
